SUMMARY

Software engineering student with hands-on experience building full-stack and backend systems, from REST APIs and database workflows to AI-powered features. Experienced in leveraging AI-assisted tools (Claude, Gemini, GitHub Copilot) to accelerate development while validating output accuracy and security. Experienced in designing scalable applications and turning ideas into working products through practical projects and software development experience.

EDUCATION

G L Bajaj Institute of Technology and Management

B.Tech in Computer Science and Engineering -- CGPA: 8.47/10

Greater Noida, UP

Oct 2023 - July 2027

A.S.M.P Public School

Class XII -- CBSE

Balrampur, UP

2022

A.S.M.P Public School

Class X -- CBSE

Balrampur, UP

2020

TECHNICAL SKILLS

Languages: C++, Python, JavaScript, TypeScript, SQL
Core CS: DSA, OOP, DBMS, OS, Computer Networks
Frontend: React.js, HTML5, CSS3, Tailwind CSS
Backend: Node.js, Express.js, FastAPI, REST APIs, JWT
Databases: MongoDB, PostgreSQL, MySQL, Redis
AI / LLM: Supervised Learning, Prompt Engineering, Gemini API, Groq API
Cloud & Tools: AWS, Git, GitHub
AI-Assisted Dev: Claude Code, GitHub Copilot, Codex

EXPERIENCE

SoftPro India

Software Development Intern - MERN Stack

Noida, India

July 2025 - Sep 2025

- Developed MERN-based modules for a Hospital Information System, including appointment and feedback workflows.
- Implemented role-based authentication, secure route protection, and automated record-management workflows.

PROJECTS

SwasthaParivar - Family Health Platform

React.js, Node.js, Express.js, MongoDB, Gemini API

- Built a full-stack family health platform supporting multi-user profiles, health records, and medical report management.
- Implemented secure authentication and role-based access control for user and family health information.
- Integrated Gemini API for medical report summaries and personalized insights through backend REST APIs.

GuardianOS - AI Security Firewall

Python, FastAPI, React, TypeScript, PostgreSQL, Redis

- Built an AI security firewall and agent supervisor evaluating prompts, tool actions, and agent behavior before execution.
- Implemented risk scoring and real-time filtering for prompt injection, sensitive-data leakage, and unauthorized actions.
- Designed human-in-the-loop approval workflows, verifiable audit logs, and vector retrieval for security monitoring.

CERTIFICATIONS

- AWS Academy: AWS Academy Graduate -- Cloud Foundations
- DeepLearning.AI & Stanford University: Supervised Machine Learning -- Regression & Classification
- The SecOps Group: Certified Blue Team Practitioner (CBTP)
- Palo Alto Networks: Cybersecurity Foundation / Network Security Fundamentals

LEADERSHIP

Rotaract Club, G L Bajaj Institute of Technology and Management

Growth and Strategy Director - Promoted from Joint Secretary

Greater Noida, India

July 2025 - Present

- Lead growth and strategy initiatives while coordinating student teams, campus events, and community engagement activities.
